Tarık Kavaz

Front-end & UX/UI

I am a front-end web designer.

Since 2002, I have been working in the design and front-end development department at Istanbul Bilgi University.

I am responsible for the design and front-end coding, managing, updating, redesigning of over 150 websites run by the University.

I incline towards furthering a career with more opportunities to improve myself on UX, UI Design and Interaction Design for the future.
